Guy Edri

Junior Frontend web developer

Experienced front-end developer with a strong background in creating user-friendly and visually appealing web applications. Proficient in HTML, CSS, JavaScript, and React. Strong understanding of responsive design, accessibility, and cross-browser compatibility. Demonstrated ability to work collaboratively with designers and developers to deliver high-quality projects on time.

Work Experience

Web project

January 2022 - January 2023

The system uses C#, JAVASCRIPT, and of course also CSS JQUERY HTML API (PAYPAL) The system also uses an SQL server database that is used to retrieve, update, delete, and add users, Products and orders. There is also a way to send emails, a way to contact for Information, BOT customer service, and technical support. The system is based on e-commerce models and has a convenient and simple user interface that makes it easier For the customer.

Cake website project

January 2022 - January 2023

A cake store website landing page using HTML, CSS, and JavaScript. Prominently feature the store, Contact information, and a selection of popular cakes and special deals. Also, include a form to place an order.
